

Join Us for a Green Entrepreneurship & Circular Economy Teenagers Bootcamp!

Are you a Teenagers between the age of 14 & 18?

Would you like to learn about green entrepreneurship, and how you could start one day your own business in the environmental field?

Have you heard about the circular economy? Do you know that many new jobs and opportunities are being created in the environmental & circular economy fields?

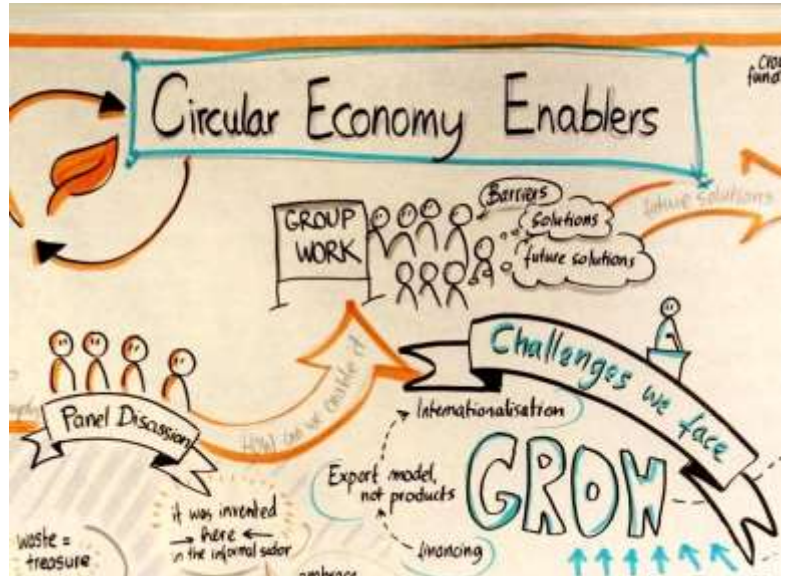

August	9	DAY 1	Discover Green Entrepreneurship, the Circular Economy, Circular Strategies, and an Eco-Design Card Game to pick your Brains :)
	10	DAY 2	Solve an Environmental Challenge through a Problem Tree Analysis and Circular Design Thinking
	11	DAY 3	Translate your Green Solution into a Green Business, and interview potential customers to gather information for it

**The Circular Hub team invites you to participate in a 3-day creative & engaging Bootcamp to find sustainable solutions to environmental challenges...
...and turn them into potential green start-ups :)**

This is a sneak peak of some of the topics we will cover & discover!

- ✓ What is green entrepreneurship? And how to build a business canvas based on a green business idea...
- ✓ What is the Circular Economy and how can we ecodesign? Remember, everything we humans have invented has been designed by someone! We will play short card games to redesign in a smarter eco-friendlier way some common objects :)
- ✓ We will use a Problem Tree approach to determine the reasons of an environmental problem and then go through a series of activities & games to brainstorm circular solutions.
- ✓ We will evaluate these solutions, select the most feasible ones, and translate them into a start-up (a new business) that will offer the best solution(s) to its clients.

The Circular Hub Certificate

By following the bootcamp in full, you will obtain the “Circular Economy & Eco-Design Track” Certificate offered by the Circular Hub.

Why should you pursue a Certificate?

Each Certificate can be used as a proof of awareness and knowledge of a certain field, that can enhance your personal CV. It is a recognition that you have actively participated in a series of seminars & workshops provided by experts, in the topics related to Green Entrepreneurship, Circular Economy, and Eco-Design.

A Certificate validates your understanding of the issues at hand and enables you to apply them to your field of studies or work. It can be used as a reference coming from EcoConsulting, an established company with almost 20 years of

experience in the field of sustainability, and a track record in giving or animating seminars, workshops, conferences, and activities in this domain.

Pricing

- * Bootcamp fees for 1 teenager: \$275
- * Bootcamp fees for others teenagers of the same family (siblings or cousins): \$200
- * Fees include lunch for 3 consecutive days, and healthy afternoon snacks

About the Circular Hub

The Circular Hub is a learning space for broadening your knowledge about a variety of topics ranging from the environment & the circular economy to sustainability issues, climate change as well as eco & social entrepreneurship, through a wide choice of seminars, workshops, activities, and games.

By spreading awareness and knowledge, we're aiming to ignite change and we want you to be a part of it too!

At the Circular Hub, we encourage you, depending on your field of studies, professional background, and/or interests to attend and actively participate in our series of seminars & workshops in one of the following 4 Tracks that we offer:

Sustainability, Climate Change & Environmental Knowledge	SE Track
The Circular Economy & Eco-Design	CE Track
Green Buildings & Sustainable Neighborhoods	GB Track
Eco & Social Entrepreneurship	EE Track

Follow us on Facebook, Insta & LinkedIn (by clicking all the below icons) to receive up-to-date information about all our events.

Thank you for spreading the word about the Circular Hub to anyone who may be interested around you!
